

# BATONS

## FRICITION LOCK

The Friction Lock Baton is a durable three-stage telescopic collapsible baton. It has an adjustable retention clip within a barrel bore guide, which eliminates clip breakage during closing. This baton is comfortable to carry and easy to open with a flick of the wrist.

### Features:

- **Basic Foam Grip** – for a more traditional feel, a sure grip, and cushioning against shock
- **Super-Grip** – a fluted surface texture that enhances control and retention
- **Safety Tip** – crafted of urethane that allows passive drawing of the baton, useful for turning a suspect's pockets inside out without the risk of injury from needles, knives, or other sharp objects

### 21" Friction Lock

#### Foam Grip

- Finish – Black Chrome
- Open – 21"
- Closed – 8.750"
